

# Steel Sector

Zamil Industrial's Steel Sector is represented by Zamil Steel Holding Company Ltd. Founded in 1977, Zamil Steel is a global leader in the manufacture of pre-engineered steel buildings and the Middle East's premier supplier of structural steel products including floor steel decks, Roof & sandwich panels and Process Equipment & Maintenance services.

**Zamil Steel operates 10 manufacturing facilities in the following countries:**

**5 in Saudi Arabia:**  
1 in Dammam 1st Industrial City  
4 in Dammam 2nd Industrial City

**1 in India:**  
Pune

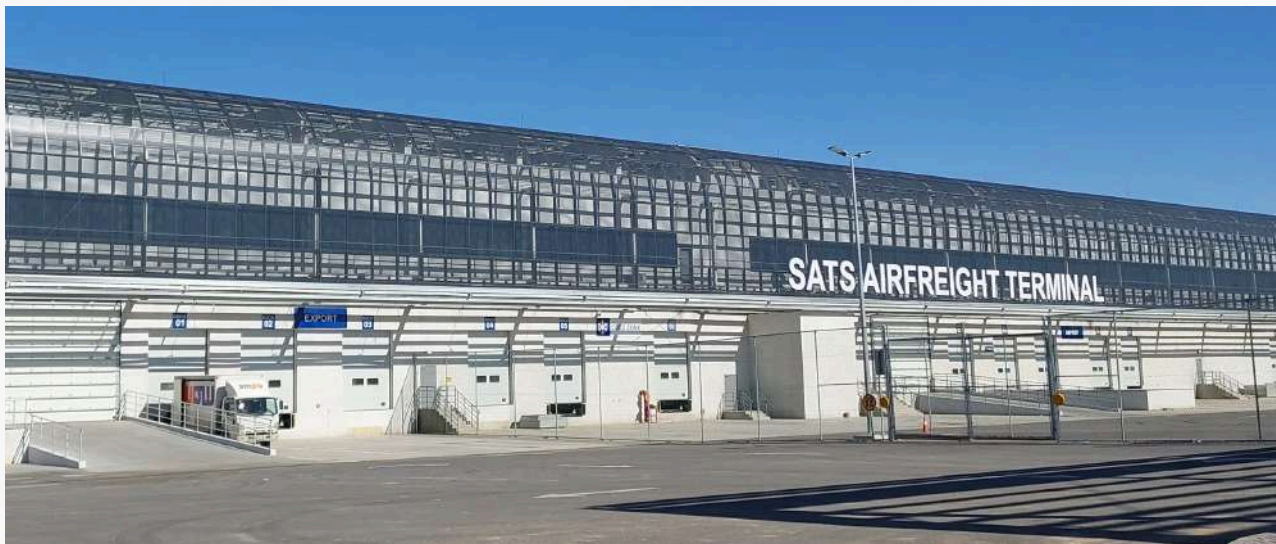

**2 in Egypt:**  
6th of October  
Sadat

**2 in Vietnam:**  
Hanoi  
Dong Nai

# Zamil Steel Pre-Engineered Buildings Company

Zamil Steel Pre-Engineered Buildings Co., which was founded in 1977 in Dammam, Saudi Arabia, is a global leader in the manufacture of high-quality pre-engineered steel buildings (PEB). The annual production capacity of the main factory in Dammam exceeds 120,000 MT of PEBs and is considered the largest single PEB factory in the world.

Since its inception, Zamil Steel has supplied more than 75,000 buildings to clients in over 90 countries worldwide. Zamil Steel is one of the few pre-engineered buildings companies that offers its clients a complete building system. The process begins at engineering, procurement, and manufacturing, and extends into installation of the building along with supplied accessories such as doors and windows.

## MAJOR CLIENTS

- Saudi Aramco
- Saudi Basic Industries Corporation
- Royal Commission Jubail
- King Abdullah Economic City
- The Red Sea Global
- NESMA & PARTNERS CONTG
- Dhahran International Exhibition
- NEOM
- TAMIMI
- SEPCO

## PRODUCTS AND SERVICES

- Steel Skeleton including Primary Framing, Secondary Framing and Structural Sub-system.
- Roof and wall panels (single skin and insulated sandwich panels)
- Steel Decks
- Other Building Accessories (Sliding Doors, Roll Up Doors, Windows, Louvers, etc.)
- standing seam

# Zamil Structural Steel Company

Known worldwide as the Middle East's leading structural steel fabricator, Zamil Structural Steel Co. provides expertise in the fabrication and installation of structural steel and plate works for a wide range of industrial and commercial applications, including power and desalination plants, petrochemical plants, oil and gas operations, cement plants, steel mills, high-rise building projects, and other industrial and commercial complexes.

Operating at a production capacity of 84,000 MT per year, with a plant facility area of 178,745 square meters, Zamil Structural Steel utilizes the latest engineering software for structural steel analysis, connection design, shop drawings preparation and state-of-the-art Computer Numerical Coded (CNC) equipment for fabrication.

Zamil Structural Steel's Quality Management Systems operate in compliance with the requirements of ISO 9001:2008, and the company has also attained ISO 14001 and OHSAS 18001 Health, Safety and Environment certifications. Additionally, the company has successfully received certification from the American Institute of Steel Construction (AISC) for Certified Bridge Fabricator – Intermediate (Major) following a rigorous on-site audit.

## MAJOR CLIENTS

- SEPCO Arabia Company
- SINOPEC
- HYUNDAI ENGINEERING
- Technip Energies
- Maire Tecnimont
- JGC CORP
- SAMSUNG E&A
- SAIPEM
- SAUDI ARAMCO

## PRODUCTS AND SERVICES

- Equipment support structures and process structures
- Structural steel buildings (commercial buildings, high rise buildings, etc.)
- Pipe racks
- Built-up girders and columns
- Architectural structures (curved structures)
- Fireproofing services for existing structures
- Engineering / Construction / Erection.
- Heavy mill buildings

# Zamil Process Equipment Company

Zamil Process Equipment Company offers a large production capacity with expertise in the manufacturing and maintenance of pressure vessels, heat transfer products, direct-fired heaters, waste heat recovery units, air-cooled heat exchangers, stacks, mass transfer products, columns, de-salters, oil/gas separators, skid-mounted modules, desalination evaporators, and storage tanks.

All company's products and services incorporate the highest engineering technology level of CEO Company and are manufactured in strict accordance with internationally recognized codes and standards. The Zamil Process Equipment fabrication area offers a production capacity of 12,000 metric tons per year, the company is enabled to undertake major mechanical contracts that service a wide variety of heavy industries and process plants, including petrochemical plants and refineries, steel and aluminum mills, fertilizer plants, desalination plants, and power plants.

## MAJOR CLIENTS

- Saudi Aramco
- MA'ADEN
- SABIC
- Saudi Electricity Company
- Satorp / Amiral
- Hyundai
- L&T
- Samsung
- Saipem
- Tecnicas Reunidas
- Pall Arabia
- Wood plc
- KBR

## PRODUCTS AND SERVICES

- Pressure Vessels
- Modular Packages
- Columns
- Reactors
- Heat Exchangers
- Storage Tanks
- Desalters
- Oil & Gas Separators
- Fired Heaters / Furnaces
- Desalination Evaporators
- Ducting / Casing & Stacks
- Refurbishment of Equipment

# Zamil Inspection & Maintenance of Industrial Projects (ZIMIPCO)

Since 2009, ZIMIPCO has provided high-quality services for Emergency Critical and Planned Maintenance Shutdowns through skilled and qualified team serving the government and private Industrial sectors.

The company has proven successful in executing Mega Repair Jobs in OIL&GAS, Petrochemical and other various Industrial Plants covering the repair of Pressure Vessels / Heat Exchangers / Tanks and other Mechanical Repairs. Jobs are being executed through high-skilled technicians who meet the project requirements to the utmost client's satisfaction.

ZIMIPCO is equipped to handle the repair/modification of high-quality equipment, guaranteed with the R-Stamp certification in line with the international CODE if required by clients.

## SERVICES RENDERED

- **Turn around & inspection:**

ZIMIPCO is well equipped through its dedicated team to undertake the overall execution activities covering management, design, planning, quality control, safety, material procurement, shop fabrication, and site repair.

Our vast experience is providing high-quality services not only for routine maintenance but also for time-critical repair needs of Refineries/ Petrochemical plants process equipment, as well as Storage tanks.

- **Heat exchanger refurbishment:**

We provide high-quality services to meet the various time-bound critical repair needs related to retubing, tube cleaning by hydro-jetting, and replacement of shells/channels/tube sheets of the heat exchangers.

- **Storage tanks maintenance:**

We provide various sizes of tanks designed per customer specifications, ranging from small site-fabricated tanks to complete new tank farms of fixed cones to floating and double-deck roof types of welded storage tanks for oil and utility industries. Whether it is carbon or stainless-steel materials; components are fabricated in a controlled shop setting, shipped to the site, and installed under experienced supervision.

- **Mechanical installation/Heavy lifting:**

We undertake major mechanical installation, including heavy lifting of columns, vessels, furnaces, exchangers, stacks & site erection of structural steel, process piping, and conveying systems.

Our professional construction/heavy lift team handles rigging procedures, safety, quality plans and performs all associated erection, alignment, and final inspection works.

- **Process Piping:**

We have a dedicated, skilled team to handle piping projects for pre-fabrication and site erection for a wide range of sizes and different types of material.

Our Certified Welders are qualified under international standards for Gaseous Metallic Arc Welding, Gaseous Tungsten Arc Welding, Shield Metallic Arc Welding, & Flux Core Arc Welding.
